TRAY & CARTON FORMERS & CLOSERS

Engineered for performance, durability and integration

CREATED WITH VERSATILITY IN MIND:

- Delkor tray & carton formers may be configured for a variety of applications and integrated with other system components.
- Delkor's Capstone™ closer incorporates the latest in technology with an industry-leading design that allows operators easy access.

Tray & Carton FORMERS

MTF 900/1200/1500 Series

Superior engineering and high-quality Stainless-steel construction distinguish Delkor's mechanical tray and carton formers. This series forms both corrugated and paperboard trays and cartons using hot-melt adhesive or lock-styles for a level of flexibility not available on competitor products.

Rockwell Automation
Machine Builder

Delkor has standardized on the Allen Bradley MicroLogix controllers from Rockwell Automation for its tray & carton formers.

Check Out The Classic Nickel Test On Delkor's MTF Tray Former!

Delkor has brought back the celebrated "Nickel Test" to demonstrate the robust construction of the mechanical tray formers. The MTF has proven for decades that the rock solid design can form tray or carton blanks with a nickel standing on its end. Go to our website at www.delkorsystems.com to see this in action!

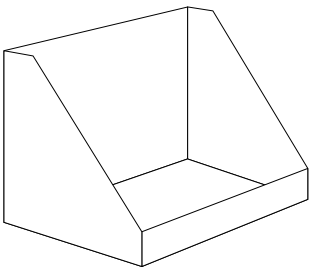

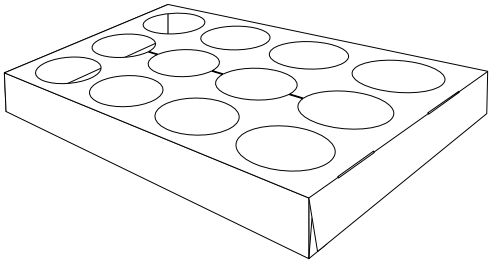

Multiple Forming Heads

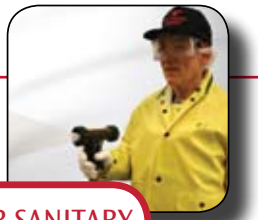

VARIETY OF TRAY OR CARTON OPTIONS

Delkor's tray packaging line can form and load a wide variety of tray or carton shapes and sizes.

Tray & Carton CLOSERS

FOR SANITARY WASH-DOWN ENVIRONMENTS

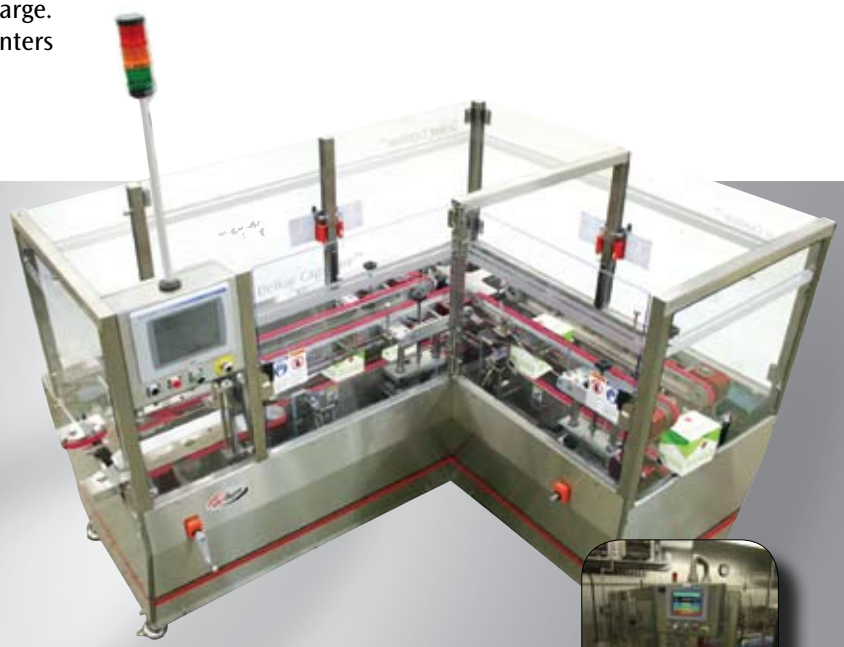

Delkor Capstone™

Our tri-seal closers boast the same high-quality stainless-steel construction that characterizes all Delkor equipment. These machines close and seal corrugated or paperboard cartons in a continuous or intermittent flow and are available in inline or right-angle models. The right-angle model can be configured as a R.H. or L.H. discharge.
All closers are crank adjustable with counters for quick repeatable mechanical setup.

Display-Ready Tray Erector

Delkor's tray erector along with the MTF series tray former are an ideal solution for many custom specialty trays.

LENGTH
MTF-900 = 108”
MTF-1200 = 108”
MTF-1500 = 120”

SINGLE FORMING HEAD

MULTIPLE FORMING HEADS

NOTE:
All dimensional combinations are dependent on machine model and finished tray/carton size. If your carton size does not fit within the chart, contact Delkor (1-800-328-5558) for custom options.

Carton & Tray Size Options

MTF SERIES	A1	A2	B	C
900	18” max	–	18” max	1 - 8”
	4” min	–	4” min	1 - 8”
1200	30” max	12” max	24” max	1 - 8”
	16” min	6” min	4” min	1 - 8”
1500	42” max	18” max	30” max	1 - 8”
	28” min	12” min	4” min	1 - 8”

NOTE: Model descriptions and photos may vary depending on options selected.
